REMARKS

Claims 1-11 are pending.

The specification has been amended to correct for non-idiomatic grammatical language and typographical errors. The claims have been amended to correct for non-idiomatic grammar usage and to more particularly point out and distinctly claim one or more implementations of applicant's invention. A new independent claim (claim 11) has been added. Figure 2 has been amended to correct a typographical error in the label of item 58. A replacement drawing sheet for Figure 2 is attached.

The above amendments are supported by the original disclosure and, thus, no new matter has been added. If the Examiner should disagree, however, it is respectfully requested that the challenged language be pointed out in the next Official Action so that citations to support in the specification may be provided with particularity in applicant's response.

An amended Abstract of the Disclosure is also submitted herewith. No new matter is added.

Applicants earnestly solicit an early and favorable examination on the merits. The Examiner is invited to contact the undersigned if any further information is required.

Respectfully submitted,

NIXON & VANDERHYE P.C.
